

Peelable Mask

Panel Protector
Specialty Screen Ink
CONVENTIONAL

Always test ink on substrate prior to production run. Please refer to the MSDS for safety precautions.

Description: Deco-Chem's Peelable Mask is a 100% solids ink that has been formulated to act as a protective coating during the forming and cutting process. The Peelable Mask film, when completely cured, will peel easily from the surface of the substrate after forming and cutting.

Features:

- Abrasion Resistant
- Easily Peel
- Formable and Die Cuttable
- No Leftover Residue
- Fast Cure Response
- Ease of Application

Substrates:

- Metal
- Over Inks

Coverage: 400-500 sq/ft. per gallon depending on ink deposit

Screen: 65 to 110 mesh recommended for most applications

Cure Parameters: Baking temperatures may vary depending on ink deposit, placement of parts in the oven and equipment. Pretests are recommended prior to production run.

250°F for 25 minutes

275°F for 15 minutes

300°F for 10 minutes

350°F for 8 minutes

400°F for 4 minutes

450°F for 3 minutes

Additives: Please contact Deco-Chem's Lab for information.

Cleaner: 3883 Wash-Up

Storage: Ink should be stored in a metal container at room temperature (75°F). Inks previously used for printing runs should be stored in a separate container to avoid cross contamination. Ink has a minimum shelf life of 6 months from date of manufacture if the above guidelines are followed and there has been nothing added to the ink.

Sizes: 1 and 5 Gallon Pails or 30 or 55 Gallon Drums Available
