

Letterpress Inks

LET

UV

Always test ink on substrate prior to production run. Please refer to the MSDS for safety precautions.

Description: Deco-Chem is proud to introduce its newly reformulated Letterpress Ink Series, formulated to work with ease on any size press for a variety applications. Consistent color, gloss, fast cure, good flow, excellent adhesion, and excellent chemical resistant are just a few of LET's qualities. Pantone® and process colors are available.

Features:

- Excellent Solvent Resistant
- Excellent Adhesion
- Good Abrasion Resistance
- High Gloss
- Color Brilliancy
- Fast Cure

Substrates:

- Coated Paper
- Uncoated Paper
- Various Films

Application: Provided at ready-to-use viscosity. Pretests are recommended prior to production run.

Cure Parameters: Deco-Chem's LET inks cure when exposed to 1 medium pressure mercury vapor lamp 300w/in at 100fpm. Cure Speeds depend on ink deposit, bulb selection and energy level.

Additives: DCA007 or DCA151 Thinner and DCA221 Flow Additives available upon request

Cleaner: FXM96 Wash-Up

Storage: Ink should be stored in a black polyethylene container at room temperature (75°F). Inks previously used for printing runs should be stored in a separate container to avoid cross contamination. Ink has a minimum shelf life of 6 months from date of manufacture if the above guidelines are followed and there has been nothing added to the ink.

Sizes: 1, 2, or 5 Gallon Pails Available
