

# Pressure Sensitive Tack Base (PSTB)

Light Tack Base  
Specialty Screen Ink  
UV

Always test ink on substrate prior to production run. Please refer to the SDS for safety precautions.

<b>Description</b>	The PSTB adhesive is a very light tack base meant for quick release where it is needed. It remains tacky for multiple runs and resists ambient dust accumulation. The PSTB cures rapidly and is low odor.			
<b>Features</b>	• Good Adhesion	• Excellent slip resistant	• Good chemical resistance	
		• Interior Durability	• Ease of application	
<b>Substrates</b>	• Various plastics	• Paper	• Card Stock	• Film
<b>Coverage</b>	400-500 sq.ft. per gallon depending on ink deposit.			
<b>Screen</b>	65- 200 mesh is recommended for most applications.			
<b>Cure parameters</b>	Deco Chem's PSTB cures when exposed to 1 medium pressure mercury vapor lamp 300w/in at 20-50 fpm. Pretests are recommended to determine highest processing speeds possible for complete cure.			
<b>Additives</b>	Thinners, adhesion promoters and cure accelerators available upon request.			
<b>Cleaner</b>	FXM96 Wash-up			
<b>Storage</b>	Ink should be stored in a black polyethylene container at 65-70F. Inks previously used for printing runs should be stored in a separate container to avoid cross contamination. Ink has a minimum shelf life of 6 months from date of manufacture if the above guidelines are followed and there has been nothing added to the ink.
